

Artikel - Artikeldetail - Artikel exportieren

Es können auch alle Artikelinformationen exportiert werden. Dies klappt mittels Button `exportieren`. Hierbei wird automatisch eine Artikelliste erstellt.

The screenshot shows a software interface with a navigation bar at the top containing various menu items like 'Adressen', 'AR', 'ER', 'Angebot', 'Artikel', 'Lieferscheine', etc. The main content area is divided into three sections:

- Table:** A table with 17 rows of article data. Each row has a name (e.g., 'Bergbauern Vollmilch'), an information icon (i), and a button (B).
- Artikelgruppen:** A list of article groups including 'ohne Gruppen', 'Fertigessen', 'Fleisch', 'Gemüse', 'Lizenzen', and 'Pfand'. Below it is a section for 'ohne Lieferant' with the value 'Birner'.
- Right Panel:** A sidebar with various controls and filters. At the bottom, there is a 'Filter anwenden' section with two buttons: 'exportieren' (highlighted with a red box) and 'importieren'.
